# Information for Students and Parents

## Choosing Year 9 Subjects and Electives

During Year 9 students will complete both subjects and electives with opportunities to select four semester length electives drawn from across the various areas of study embedded in the Australian Curriculum framework.

### Curriculum Offerings

#### *Core Subjects*

All students in Year 9 will study **six core academic subjects**. The core academic subjects include:

- Religion
- English
- Mathematics
- Science
- Humanities and Social Sciences – History/Geography
- Health and Physical Education

Students also participate in the weekly Sport/Recreation program.

#### *Elective Subjects*

Along with studying the core subjects, Year 9 students are required to select **four elective subjects** across the year (two per semester) plus **two reserve elective subjects** from the range of elective indicated on the next page.

Electives have a time allocation of **six** periods per cycle (two weeks) and the recommendation is that students should select their first four preferences across at least three subject areas. The only exceptions to this guideline are Italian and Music due to the specific sequential and developmental nature of these subjects.

### Timetable Schedule

The timetable is structured as a 10 day (two week) cycle consisting of 60 periods.

### Subject Selection Online

Subject selections are facilitated through an online subject selection system.

# Curriculum Offerings

## Year 9 Core Subjects

Subject	Semester Length	Type
09RE – Religion	2	Core
09ENG – English	2	Core
09GEO – Humanities and Social Sciences (Geography)	1	Core
09HIS – Humanities and Social Sciences (History)	1	Core
09MAT – Mathematics	2	Core
09SCI – Science	2	Core
09HPE – Health and Physical Education	2	Core
09SPO – Sport and Recreation	2	Core

## Year 9 Elective Subject Offerings

Subject	Semester Length	Type	Semester Offered
<b>Humanities and Social Sciences</b>			
09CIV – Civics and Citizenship (Government and the Law)	1	Elective	1 & 2
09ECBUSC1 – Economics and Business I (Manage Your Money)	1	Elective	1
09ECBUSC2 – Economics and Business II (Entrepreneurship)	1	Elective	2
<b>Languages</b>			
09ITLC1 – Italian I	1	Elective	1
09ITLC2 – Italian II	2	Elective	2
<b>Technologies</b>			
09DIGTEC – Digital Technology I	1	Elective	1
09DTMATC – Design Technology Materials I	1	Elective	1
09DTEPS1 – Engineering Principles and Systems I	1	Elective	1
09DTFFP – Food and Fibre Production I	1	Elective	1
09DTFS – Food Specialisations I	1	Elective	1
09DIGTEC – Digital Technology II	1	Elective	2
09DTMATC – Design Technology Materials II	1	Elective	2
09DTEPS1 – Engineering Principles and Systems II	1	Elective	2
09DTFFP – Food and Fibre Production II	1	Elective	2
09DTFS – Food Specialisations II	1	Elective	2
<b>The Arts</b>			
09DANC1 – Dance I	1	Elective	1
09DANC2 – Dance II	1	Elective	2
09DRAC1 – Drama I	1	Elective	1
09DRAC2 – Drama II	1	Elective	2
09MEDA – Media Arts I	1	Elective	1
09MEDA – Media Arts II	1	Elective	2
09MUSC1 – Music I	1	Elective	1
09MUSC2 – Music II	1	Elective	2
09VARTC1 – Visual Arts I	1	Elective	1
09VARTC2 – Visual Arts II	1	Elective	2

## Strategy for Choosing Subjects

As a basic strategy, it is suggested students choose subjects:

- they enjoy
- in which they have already had some success
- which may help them reach a chosen career
- that lead to subjects they may be considering for senior phase of learning (Year 11 and 12)
- which will develop skills, knowledge and attitudes useful throughout your life

It is important to remember that students are individuals, and that their particular needs and requirements in subject selection will be quite different from those of other students. This means that it is unwise to either take or avoid a subject because:

- someone told them they will like or dislike it
- their friends are or are not taking it
- they like or dislike the teacher

## Further Information

### Homework/Study

Each student should endeavour to complete approximately 1 to 1½ hours of homework/study each night during Year 9. This can take the form of work set by the teacher, a review of the day's work or general revision of work completed earlier in the semester. Homework/study should be done under conditions where distractions, such as television, are kept to a minimum.

### Assessment Policy and Guidelines

During the course of students' schooling they will be required to complete assessment tasks and submit work to teachers for evaluation. The assessment tasks may include research or practical assignments, performances, essays and formal examinations. Please refer to the Assessment Policy and Guideline document on the Parent Portal for further details.

# Subjects (Core and Elective)

## Religion

Core Subject – Compulsory

---

**Subject Title:** 09RE – Religion

---

### Subject Overview

Catholic schools offer an educational foundation for life to the full. They encourage students to develop their relationship with their God and to live the enduring values needed in an ever-changing world.

Religious Education in the contemporary Catholic School comprises two distinct but complementary dimensions – teaching people religion and teaching people to be religious.

Teaching people to be religious is a faith development activity focused on nurturing the religious, spiritual and faith growth of students. At Siena, this occurs in the context of the school and the wider community. It encompasses Prayer and Worship, Faith Formation and Social Action & Justice, all of which help to create a sense of purpose and identity in a community that values right relationships, compassion and justice.

Teaching people about Religion is an educational activity focused on teaching and learning. It utilises a range of learning processes and resources that are designed to develop student’s knowledge and understanding – so that they will have the skills to participate critically and effectively in the life of their faith communities and the wider society.

The Religion Curriculum involves four interrelated strands: Sacred Texts, Beliefs, Church, and Christian Life, all of which are integrated across a variety of topics.

Themes to be studied include:

- The foundational beliefs of Christianity
- Biblical Criticism of Hebrew and Christian Scriptures
- Good and Evil
- Sacraments of Healing
- Catholic Social Teaching
- Morality

### Assessment

Students’ understanding of Religion will be assessed through a variety of methods, including but not limited to:

- Short Response Test
- Research Tasks
- Project (spoken and product)
- Extended written response

### Further Comments

Religious Education is compulsory for all students in all year levels.

### Cost

Costs associated with this subject will be included in the College Fees.

# English

## Core Subject – Compulsory

---

**Subject Title:** 09ENG – English

---

### Subject Overview

The study of English is central to the learning and development of all young Australians. It helps students to

- be confident communicators, imaginative thinkers and informed citizens.
- learn to analyse, understand, communicate with and build relationships with others and with the world around them.
- develop the knowledge and skills needed for education, training and the workplace.
- become ethical, thoughtful, informed and active members of society
- engage imaginatively and critically with literature to expand the scope of their experience.

The delivery and assessment of the course is organised into three interrelated strands:

- Language: knowing about the English language
- Literature: understanding, appreciating, responding to, analysing and creating literature
- Literacy: expanding the repertoire of English usage.

Together the three strands focus on developing students' knowledge, understanding and skills in listening, reading, viewing, speaking and writing.

### Units and Assessment

- Persuasive language – written and oral skills
- Advertising – analysing written and visual language devices
- Themes in fiction – a novel study and narrative writing skills
- Film review – evaluating the use of visual and auditory techniques to engage the audiences

### Further Comments

The Year 9 English course also assists students in their use of language across other humanities subjects in the school curriculum and in activities beyond the school community.

### Cost

Costs associated with this subject will be included in the College Fees.

# Humanities and Social Sciences (Geography)

Core Subject – Compulsory

---

**Subject Title:** 09GEO – Humanities and Social Sciences (Geography)

---

## Subject Overview

Students complete a semester course of History and a semester course of Geography.

*Geography: 'Biomes and Food Security' and 'Geographies of Interconnections'*

In Geography, students investigate the role of the environment and its role in food production. Students examine the biomes of the world, their alteration and significance as a source of food and the environmental challenges of expanding food production in the future. Food production and food security are investigated using studies drawn from Australia and across the world. Students also study how people, through their choices and actions, are connected to places throughout the world in a wide variety of ways and how these connections help to make and change places and their environments. Students complete this investigation by participating in a field trip to Mooloolaba.

Students focus on:

- What are the causes and consequences of change in places and environments and how can this change be managed?
- What are the future implications of changes to places and environments?
- Why are interconnections and interdependencies important for the future of places and environments?

## Assessment

Students will be assessed through the following instruments:

- Practical Exam
- Field Report

## Cost

Costs associated with this subject will be included in the College Fees.

# Humanities and Social Sciences (History)

Core Subject – Compulsory

---

**Subject Title:** 09HIS – Humanities and Social Sciences (History)

---

## Subject Overview

Students complete a semester course of History and a semester course of Geography.

*History: 'Making a Nation' and 'WWI'*

In History, students examine the history of the making of the modern world from 1750 to 1918. It was a period of industrialisation and rapid change in the way people lived, worked and thought. It was an era of nationalism and imperialism, and the colonization of Australia was part of the expansion of European power. The period culminated in World War I, 1914-1918, the 'war to end all wars'.

The content provides opportunities to develop historical understanding through key concepts, including evidence, use of primary and secondary sources, continuity and change, cause and effect, perspectives, empathy, significance and contestability.

Students focus on:

- What were the changing features of the movements of people from 1750 to 1918?
- How did new ideas and technological developments contribute to change in this period?
- What was the origin, development, significance and long-term impact of imperialism in this period?
- What was the significance of World War I?

## Assessment

Students will be assessed through the following instruments:

- Historical Report
- Stimulus Response test

## Cost

Costs associated with this subject will be included in the College Fees.

# Mathematics

## Core Subject – Compulsory

---

**Subject Title:** 09MAT – Mathematics

---

### Subject Overview

All Year 9 Mathematics students will be exposed to a wide range of mathematical understandings, processes and skills in ways that encourage them to develop an appreciation of the power and beauty of Mathematics and its usefulness in our society.

All students will have access to topics from the Australian Curriculum in the following strands:

- Number
- Measurement
- Algebra
- Geometry
- Statistics and Probability

Mathematics units will be offered sequentially across Semester 1 and 2.

### Assessment

Students in all units will be assessed through tests and an assignment each semester.

The following criteria will be assessed:

- Fluency and understanding
- Problem solving and reasoning

At the end of Year 9, students will be asked to make a selection for their year 10 program. Availability of choice at Year 10 will be dependent upon the level of success demonstrated in Year 9.

### Cost

Costs associated with this subject will be included in the College Fees.

# Science

## Core Subject – Compulsory

---

**Subject Title:** 09SCI – Science

---

### Subject Overview

Science, through technology, continues to transform our world. Every aspect of modern life is affected by it. Science is a powerful way of generating and organising knowledge and is a major contributor to the cultural and intellectual development of our society.

Students will continue study in the following strands, focusing on Science Understanding, Science as a Human Endeavour and Science Inquiry Skills, building on each as they progress through Year 9:

- Earth and Space Sciences – Plate Tectonics
- Physical Sciences – Energy
- Biological Sciences – Body Systems, Ecosystems
- Chemical Sciences – Atomic Theory, Chemical Reactions

The units of study are contextually based.

### Assessment

Assessment includes both formative and summative assessment techniques including:

- Student Experiments
- Supervised Exams
- Research Investigations
- Field Reports
- Group Presentation

The assessment criteria will be based on two dimensions:

#### Understanding

- Science Understanding
- Science as a Human Endeavour

#### Skills

- Questioning and Predicting
- Planning and Conduction
- Processing and Analysing Data and Information
- Evaluating
- Communicating

### Further Comments

- The Junior Science course is a pre-requisite and leads to continued core studies in Year 10 Science. In Years 11 and 12 students may choose to study one or more of the following Senior Science subjects
- Biology
- Chemistry
- Physics
- Psychology

### Student Resources

- Pearson Science 2<sup>nd</sup> Edition Textbook and Activity book
- Teacher-prepared units
- Stile online program

### Cost

Costs associated with this subject will be included in the College Fee

# Health and Physical Education

## Core Subject – Compulsory

---

**Subject Title:** 09HPE – Health and Physical Education

---

### Subject Overview

Students engage in learning under the strands of the HPE National Curriculum: personal, social and community health and movement and physical activity. Contact time amounts to 3 single lessons and one double lesson per fortnightly cycle.

The following is covered in Year 9:

#### *Personal, Social and Community Health Strand:*

- Sun Safety
- Planning and Time Management
- Stress Management
- Communication strategies
- Mental Health and Wellbeing
- Relationships and Sexuality
- First Aid
- Alcohol and Cannabis

#### *Movement and Physical Activity Strand:*

- Snorkelling
- Australian Rules Football
- European Handball
- Volleyball

### Assessment

Students submit a work booklet demonstrating their learning of the elements under the Personal, Social and Community Health Strand. Students also complete an assessment task each term to demonstrate their progress in achieving the Health and Physical Education Australian Curriculum Achievement Standards

Students undergo continuous assessment of the elements of the Movement and Physical Activity Strand. This assessment culminates in an authentic context physical activity eg. Speedball – play in an intra-class European Handball tournament.

### Cost

Costs associated with this subject will be included in the College Fees.

# Sport and Recreation

Core Subject – Compulsory

**Subject Title:** 09SPO – Sport and Recreation

## Subject Overview

In Terms 2 and 4, Year 9 students have the opportunity to represent the school in the Coastal District Interschool Sport Competition.

Term 2		Term 4	
Boys	Girls	Boys	Girls
AFL Volleyball Rugby League Soccer	Netball Volleyball Touch Soccer	Basketball Cricket Tennis Softball Touch	OzTag Softball AFL Basketball Tennis

Students not involved in the interschool sport competition participate in a school based sport program, which aims to develop students' interest and skills in a variety of sports.

In Term 1, Year 9 students choose from a variety of sport and recreation options such as golf, diving, ju-jitsu, yoga, gym, surfing and sailing.

In Term 3, Year 9 students participate in selection trials and training for the Term 4 competition.

Proficient students are eligible to trial for District and Regional sporting teams at designated trial days throughout the year.

## Further Comments

Inter-House carnivals are held throughout the year:

- Swimming in Term 1
- Cross Country in Term 2
- Athletics in Term 3.

Selected students represent the school at District or Regional carnivals and are eligible for District, Regional and State selection.

## Cost

Costs associated with this subject will be included in the College Fees.

Some activities have an extra cost, which is billed with the term fees. Students are not required to take an activity with a surcharge.

# Humanities and Social Sciences – Civics and Citizenship

## Elective Subject

---

**Unit Title:** 09CIV – Civics and Citizenship

---

### Unit Overview - Government and the Law

Civics and Citizenship builds students' understanding of Australia's political system and how it enables change. Students examine the ways political parties, interest groups, media and individuals influence government and decision-making processes. They investigate the features and principles of Australia's court system, including its role in applying and interpreting Australian law. Students also examine global connectedness and how this is shaping contemporary Australian society.

Students focus on:

- What influences shape the operation of Australia's political system?
- How does Australia's court system work in support of a democratic and just society?
- How do citizens participate in an interconnected world?

Students study the following units:

- Government and democracy
- Laws and citizens
- Citizenship, diversity and identity

### Assessment

Students will be assessed through the following instruments:

- Short Response test
- Research Report/ interview

### Cost

Costs associated with this subject will be included in the College Fees.

# Humanities and Social Sciences – Business I

## Elective Subject

---

**Unit Title:** 09ECBUSC1 – Business I

---

### Unit Overview - Manage your Money

This unit will allow students to review and extend their computer skills, as well as giving them a sound knowledge base for personal financial management.

Manage your Money, is aimed at providing an understanding of personal finances and about being an informed consumer to enable students to successfully manage their finances and recognise selling techniques and influences.

This semester's study focuses on the student as a financial consumer and prepares them for the myriad of decisions facing them in the commercial world.

Topics covered include:

#### *Personal Finance*

- Personal budgets
- Forms of income
- Types of credit and how best to make use of it
- Banking documents
- Website investigations
- Case studies in real life situations

#### *Consumer Awareness*

- Factors affecting purchase decisions
- Traps for consumers
- Tips to avoid scams
- Avenues for consumer protection
- Website investigations
- Case studies of real-life applications

### Assessment

Students will be assessed through class tests, assignments and their ability to accurately and discerningly investigate financial websites.

### Cost

Costs associated with this subject will be included in the College Fees.

# Humanities and Social Sciences – Business II

## Elective Subject

---

**Unit Title:** 09ECBUSC2 – Business II

---

### Unit Overview - Entrepreneurship

The unit Entrepreneurship is aimed at providing an insight into small business requirements. Students will make decisions about business planning, marketing, innovation and organisation while recognising the selling techniques and influences of consumers. This will culminate in a student run market stall at the college.

This semester's study focuses on the student as a business owner. Each student will be given the opportunity to run their own business; this will prepare them for the myriad of decisions facing them in the commercial world.

Topics covered include:

#### ***Business Planning***

- Factors affecting purchase decisions
- Avenues for consumer protection
- naming an enterprise
- Personal budgets
- Website investigations
- handling money
- recording of profitability of each venture and the overall business
- recording of all cash flow in the business
- Website investigations
- Case studies of real-life applications

#### ***Entrepreneurship***

- Small business requirements
- Business planning
- Marketing
- Innovation
- Organisation
- Planning to ensure you have sufficient ingredients/stock to allow your business to operate
- Devising product ideas
- Advertising; sales and customer relations

#### **Assessment**

Students will be assessed through assignments and their ability to accurately and discerningly run a business operation.

#### **Cost**

Costs associated with this subject will be included in the College Fees.

# Languages – Italian I

## Elective Subject

---

**Unit Title:** 09ITLC1 – Italian I

---

### Unit Overview

In studying Italian, students will be encouraged to develop communication skills in the areas of Listening, Reading, Speaking, and Writing. Italian classrooms are vibrant learning environments where students engage in a variety of tasks. Our curriculum is in line with the new syllabus and prepares students for further studies.

The study of Italian encourages cultural literacy through the promotion of socio-cultural understanding. This is promoted through the study of the Italian culture. Studying Italian opens the possibility of travel, both with the College's Italian exchange program and independently.

Study of Italian is thematic and is organised from the following fields of study:

- Italian food and cuisine
- Weather
- Going out and socialising

### Assessment

Students will be assessed each term using a variety of instruments.

### Further Comments

It is recommended that students take at least one semester of Italian in Year 9. Study of at least one semester of Italian in Year 8 is recommended.

Year 9 and 10 Italian electives can lead to further studies of Italian at the Senior level.

The learning of a language other than English allows students to develop knowledge and understanding of another culture and to see events from the view of another culture. It increases the possibilities for students to travel, study and work overseas.

The study of language is of special significance for trade, business and tourism. Encouraging linguistic diversity is a valuable national resource.

The Language program aims to develop students as lifelong learners. In order to achieve this we utilize a wide range of teaching and learning strategies.

### Cost

Costs associated with this subject will be included in the College Fees.

# Languages – Italian II

## Elective Subject

---

**Unit Title:** 09ITLC2 – Italian II

---

### Unit Overview

In studying Italian, students will be encouraged to develop communication skills in the areas of Listening, Reading, Speaking, and Writing. Italian classrooms are vibrant learning environments where students engage in a variety of tasks. Our curriculum is in line with the new syllabus, and prepares students for further studies.

The study of Italian encourages cultural literacy through the promotion of socio-cultural understanding. This is promoted through the study of the Italian culture. Studying Italian opens the possibility of travel, both with the College's one month Immersion Programme and independently.

Study of Italian is thematic and is organised from the following fields of study:

- Italian family life
- Italian homes

### Assessment

Students will be assessed each term using a variety of instruments.

### Further Comments

Students may choose either one or both semesters of Italian in Year 9 to allow for a yearlong program of study. If you wish to study Italian in Year 10 and beyond, you must choose at least one semester of Italian in Year 9. Study of at least one semester of Italian in Year 8 is recommended.

The learning of a language other than English allows students to develop knowledge and understanding of another culture and to see events from the view of another culture. It increases the possibilities for students to travel, study and work overseas.

The study of language is of special significance for trade, business, and tourism. Encouraging linguistic diversity is a valuable national resource.

The Language program aims to develop students as lifelong learners. In order to achieve this we utilize a wide range of teaching and learning strategies.

### Cost

Costs associated with this subject will be included in the College Fees.

# Technologies – Digital Technology I and II

## Elective Subject

---

**Unit Title:** 09DIGTEC1 – Digital Technology I  
09DIGTEC2 – Digital Technology II

---

### Unit Overview

In a workforce where automation is either deeply embedded in day to day routines or replacing traditional jobs all together, Digital Technology is an incredibly relevant and rewarding course.

The Digital Technology course is structured to support students who have a range of experience in coding, including those who have never coded before. The learning experiences within Digital Technology are based upon the skills of students up to a Year 7 level and as a result students of any ability or interest will find success in the course.

Here are four good reasons to study 'Digital Technologies':

- growth in jobs
- even non-technical employees can benefit from knowing some programming
- learning to code promotes abstract thinking and problem solving
- you can develop applications for your own personal use or to sell on the App Store

Student learning involves the hands-on use of computers and programs, which allow for the development of a variety of solutions integrating the development iPhone/iPad software, coding to apply iPhone/iPad hardware along with Internet and web technologies. The lesson content is completely flexible and follows the interests and imagination of the student. As students progress the opportunities to select a personalised learning path increase. Future application of the skills can be applied to e-commerce, data and statistics (including social media and sport), along game development and augmented reality. Students may find themselves employment opportunities while at school, both with and without coding duties, as the demand for computing knowledge is high within a wide range of industries.

### Assessment

The content and assessment has been designed specifically for individualisation. Unlike exam based subjects, all products generated in the assessment are designed to be personally used or sold to a wider audience with a larger purpose. Students are solving problems that they determine requires a digital solution. At no stage will students be required to memorise code or work within a closed environment. All assessment is completed under real world conditions with resources always available and collaboration at the forefront.

### Further Comments

Students will be encouraged to work independently so that they can extend their programs to a degree consistent with their ability and interest.

### Cost

Costs associated with this subject will be included in the College Fees.

# Technologies – Design Technology Materials I

## Elective Subject

---

**Unit Title:** 09DTMATC1 – Design Technology Materials I  
09DTMATC2 – Design Technology Materials II

---

### Unit Overview

This subject has a strong focus on the produce element of the design process and is based mainly in the traditional woodwork/metalwork workshops.

Students analyse ways to produce designed solutions through selecting and combining characteristics and properties of materials, systems, components, tools and equipment. Students will be solving design problems by working through a design process to produce products and prototypes using a variety of materials (wood, metal, plastics) and technologies (hand and portable power tools).

Students will be required to produce Design Folios that will also include the need to learn: 'sketching', 'technical drawing' and 'computer 2D & 3D modelling' techniques.

Design problems may include:

- Carry Case
- Child's toy (Tipper truck)
- Wall hanging
- Sheetmetal project
- Plastics project

### Assessment

Students will be assessed through design folios and practical projects.

### Cost

Costs associated with this subject will be included in the College Fees.

# Technologies – Engineering Principles and Systems I and II

## Elective Subject

---

**Unit Title:** 09DTEPS1– Design and Technologies – Engineering Principles and Systems I  
09DTEPS2 – Design and Technologies – Engineering Principles and Systems II

---

### Unit Overview

This subject has a strong focus on the design element of the design process and is based mainly in a general classroom.

In this unit students will analyse how motion, force and energy are used to manipulate and control electromechanical systems when designing simple, engineered solutions. They will solve problems through the design process. Students will be experimenting to select the most appropriate principles and systems on which to base design ideas, for example structural components to be tested for strength. Students will have the opportunity to use numerous technologies in this unit.

Students will be required to produce Design Folios that will also include the need to learn: ‘sketching’, ‘technical drawing’ and ‘computer 2D & 3D modelling’ techniques.

Possible projects may include:

- Electronic dice marble lifter
- Electronic dice
- Plywood bridge
- Candle holder
- Universal joint
- Sprocket multiplier

### Assessment

Assessment will include Design Folios and products/prototypes.

### Cost

Costs associated with this subject will be included in the College Fees.

# Technologies – Food and Fibre Production I and II

## Elective Subject

---

**Unit Title:** 09DTFFP1– Design and Technologies – Food and Fibre Production I  
09DTFFP2– Design and Technologies – Food and Fibre Production II

---

### Unit Overview

In Year 9 students will use design and technology knowledge and understanding, processes and production skills and design thinking to produce designed solutions to identify needs or opportunities particularly within the food and fibre production and food specialisations. Students will have opportunity to work independently as well as collaboratively using a range of technologies to communicate ideas and design solutions. Problem-solving approaches to learning and assessment have real life context and provide students with opportunity to explore their creativity, problem-solving skills, independence and communication skills.

This subject is aimed at students who want to develop:

- Responsibility, self-reliance, personal management and teamwork.
- Nutritional guidelines and practices promoting the optimal health of individuals and families.
- Sound practices related to food selection, preparation and service to ensure efficient utilisation of resources.
- Principles and practices underlying the nature, performance, use, design and maintenance of textile materials.
- Sound practice related to textile selection and construction to ensure efficient utilisation of resources.

Students will study the following units:

#### *Food Media*

- Food preparation, kitchen skills
- Basic principles of baking: biscuits, slices, cakes, fete food, cooking with the 5 food groups
- Considerations for food alternatives – applying the Australian Guide to Healthy Eating
- Design Challenge: Providing a service and creating a tasty, nutritious and easy to make product
- Communicating and marketing your product via a social media post targeting teenagers

#### *Future Clothing Design*

- Textile and Sewing basics, Using a pattern, Embellishments and Design
- Construction of pyjama pants and create a bag to match
- Environmental impacts of textile fibres- cotton, hemp, rayon
- Consider the social impacts of fast fashion
- E-Textiles – create a small circuit sewn into fabric to enhance product
- Design challenge: Smart Sleepwear

### Assessment

Students will be assessed through interesting research assignments, practical food preparation and textile projects.

### Cost

Costs associated with this subject will be included in the College Fees.

# Technologies – Food Specialisations I and II

## Elective Subject

---

**Unit Title:** 09DTFS1 – Design and Technologies Food Specialisations I  
09DTFS2 – Design and Technologies Food Specialisations II

---

### Unit Overview

In Year 9 students will use design and technology knowledge and understanding, processes and production skills and design thinking to produce designed solutions to identify needs or opportunities particularly within the food production and food specialisations. Students will have opportunity to work independently as well as collaboratively using a range of technologies to communicate ideas and design solutions. Problem-solving approaches to learning and assessment have real life context and provide students with opportunity to explore their creativity, problem-solving skills, independence and communication skills.

This subject is aimed at students who want to develop:

- Responsibility, self-reliance, personal management and teamwork.
- Nutritional guidelines and practices promoting the optimal health of individuals and families.
- Sound practices related to food selection, preparation and service to ensure efficient utilisation of resources.

Students will study the following food unit:

#### *Sustainable Table*

- Cooking staples from scratch
- Consider food waste and food miles
- Cooking with a conscience
- Investigating the impacts of food waste
- Making your own kitchen sustainable
- Buying locally, sourcing from markets
- Cooking using fresh ingredients
- Design Challenge

### Assessment

Students will be assessed through interesting research assignments, practical food preparation and mini design challenges.

### Cost

Costs associated with this subject will be included in the College Fees.

# The Arts – Dance I

## Elective Subject

---

**Unit Title:** 09DANC1 – Dance I

---

This unit is offered in Semester 1

### Unit Overview

In Dance, students will have the opportunity to explore dance as an art form through choreography, performance and appreciation. They will explore meaning and interpretation, forms and elements, and social, cultural and historical contexts of dance as they make and respond to dances.

This semester students will build on their awareness of the body and to improve their performance skills including confidence, accuracy and clarity of movement in a variety of dance styles. They will also evaluate the choreographic intent and expressive skills in dances they view and perform.

Students will study the following units:

- Razzle Dazzle
- Go with the Flow

### Assessment

Students will be assessed in the following areas:

- Making
- Responding

Students will be assessed on self and group devised choreography which they perform, with a written justification of the elements of dance and choices made. They will also evaluate the elements and the choreographer's intention of particular dances.

### Further Comments

This semester unit studied in Year 9 provides students with a range and balance of learning activities and skills that extend on from dance in previous years, however this elective can be undertaken without previous dance experience. Units are designed to cater for a variety of interests and levels of experience from beginner to experienced dancers. Dance promotes self-confidence and self-expression which allows students to use their creativity to express themselves through movement.

### Cost

Costs associated with this subject will be included in the College fees.

# The Arts – Drama I

## Elective Subject

---

**Unit Title:** 09DRAC1 – Drama I

---

This unit is offered in Semester 1

### Unit Overview

In Drama, students explore, depict and celebrate human experience by imagining and representing other people through live performance. Students analyse the elements of drama, forms and performance styles and evaluate meaning and aesthetic effect in the drama they devise, interpret, perform and view.

This semester students will explore the use multimedia integrated with live performance. They will develop and sustain different roles and characters for given circumstances and intentions. They will perform devised and scripted drama in different forms, styles and performance spaces. They will collaborate with others to plan, direct, produce, rehearse and refine performances. They will select and use the elements of drama in directing and acting to engage audiences. Students will learn to refine performance and expressive skills in voice and movement to convey dramatic action.

Students will study the following units:

- Cinematic Theatre
- Transformation to Stage

### Assessment

Students will be assessed in the following areas:

- Making: Forming and Performing
- Responding

Students will be assessed through a combination of performance work, written assignment tasks, oral expression and self/peer evaluation.

### Further Comments

Semester units studied in Year 9 provide students with a range and balance of learning activities and skills that develop in complexity from the Year 8 Drama course. Units are designed to cater for a variety of interests and prepare students for further study in Senior Drama courses. Drama promotes self-confidence and so develops students' skills in oral presentation for a variety of situations now and in the future.

### Cost

Costs associated with this subject will be included in the College Fees.

# The Arts – Music I

## Elective Subject

---

**Unit Title:** 09MUSC1 – Music I

---

This unit is offered in Semester 1

### Unit Overview

In Music, students learn through engagement with a variety of music genres, practices and concepts. Students will learn how to interpret and manipulate the musical elements to create their own individualised style. Music assists students in developing skills in working independently and collaboratively, reflecting authentic practices of music performers, composers and audiences. Students develop highly transferable skills and the capacity for flexible, creative thinking.

This semester students will explore how cultural and personal identity is expressed through the production of popular music. They will use their knowledge to develop their own unique style of performance and composition. They will manipulate the elements of music to communicate meaning through individual and small group performances. Students will develop their skills by composing a song portraying either cultural or personal identity.

Student will study the following units:

- Who am I?
- Undercover Artist

### Assessment

Students will be assessed in the following areas:

- Making – performing and composing music
- Responding

Students will be assessed through a combination of performance, composition and written tasks.

### Cost

Costs associated with this subject will be included in the College Fees.

# The Arts – Visual Arts I

## Elective Subject

---

**Unit Title:** 09VARTC1 – Visual Arts

---

This unit is offered in Semester 1

### Unit Overview

In Visual Arts students learn through direct engagement with two-dimensional, three-dimensional and four-dimensional art practices and concepts. Students will learn how to manipulate materials and techniques to develop, refine and represent ideas and subject matter in their artworks. Students will also learn how to evaluate artworks and analyse connections between visual conventions, practices and viewpoints that represent their own and others' ideas.

In Semester 1 students will explore a variety of artmaking activities with an emphasis on developing skills in their use of media and techniques through activities such as a portrait drawing, and the creation of a ceramic bust based on the students own likeness. They will also learn about Indigenous art practices, aerial panting and experiment with mixed media.

Students will study the following:

- Face to Face
- Mapping a different time

### Assessment

Students will be assessed in the following areas:

- Making
- Responding

Students will be assessed on practical making tasks, folio /art journal submission and written assignments.

### Further Comments

The Art program provides an extension of the course in Year 8 with emphasis in Year 9 on developing confidence with media and techniques and students developing their style. In Year 9 self-expression and creativity as a means of visual communication and art appraisal are emphasised. For skill development, the selection of Visual Art in both semesters is preferred, but not essential.

### Cost

Costs associated with this subject will be included in the College Fees.
